Security Update: Drupal has released an advisory to address several vulnerabilities in Drupal 8.x

Status Type
Security Update
Private

Date and Time
Monday, August 21, 2017 - 09:20

Reason
Security Update

Impact
Drupal users

WHAT HAPPENED?
Drupal has released an advisory to address several vulnerabilities in Drupal 8.x.

AFFECTED SYSTEMS:
- Drupal core 8.x versions prior to 8.3.7
WHAT'S THE PROBLEM?

If exploited, one of the vulnerabilities may allow an attacker to obtain or modify sensitive information.

WHAT DO YOU NEED TO DO?

Install the latest version:

- If you use Drupal 8.x, upgrade to **Drupal core 8.3.7** [2]
- If you use Drupal 7.x, Drupal core is not affected. However you should consider using the mitigation steps at [https://httpoxy.org/](https://httpoxy.org/) [3] since you might have modules or other software on your server affected by this issue.
