Refer to Alerts listed below

WHAT HAPPENED?

US-CERT has identified Malicious North Korean Cyber Activity. The U.S. Government refers to the malicious cyber activity by the North Korean government as HIDDEN COBRA.

Advanced Users: For more detailed information, go to:

AFFECTED SYSTEMS:

- Refer to Alerts listed above.

WHAT'S THE PROBLEM?

Some of these vulnerabilities, if exploited, could allow an attacker to take control of an infected system.

HOW DO I PROTECT MY COMPUTER?

Update your software

1. If you are supported by ITFS or have different IT support, no action on your part is required.
2. If you do not have IT support or they do not support your computer, refer to the US-CERT alerts listed above.
