Public

Date and Time

Thursday, July 11, 2019 - 14:05

Reason

Security update

Impact

Cisco users

WHAT HAPPENED

Cisco has released security updates to address **HIGH** vulnerabilities in multiple Cisco products.

Advanced Users: For a complete description of the vulnerabilities and effected systems, visit:

- **Cisco Security Advisories and Alerts:**
https://tools.cisco.com/security/center/publicationListing.x?product=Cisco&sort=-day_sir#~Vulnerabilities [1]

AFFECTED SYSTEMS:

- See the advisory/alerts listed at the above link.

WHAT'S THE PROBLEM?

A remote attacker could exploit some of these vulnerabilities to cause a denial-of-service condition.

WHAT DO I NEED TO DO?

Users and administrators are encouraged to go to the link listed above and review the Cisco Security Advisories and Alerts.
