Security Update: Adobe has released security updates to address Critical and Important vulnerabilities affecting various products

Adobe has released security updates to address Critical and Important vulnerabilities affecting various products.

**Status Type**

Security Update

**Private**

Public

**Date and Time**

Wednesday, January 15, 2020 - 10:45

**Reason**

Security update

**Impact**

Adobe users

**WHAT HAPPENED?**

Adobe has released security updates to address Critical and Important vulnerabilities affecting various products.

**Advanced Users:** For a complete description of the security enhancements and affected software refer to:

**AFFECTED Products:**

See the products listed within the Adobe Security Bulletins and Advisories at the above link.

WHAT'S THE PROBLEM?
Exploitation of this vulnerability may allow a remote attacker to take control of an affected system.

HOW DO I PROTECT MY COMPUTER?
Update your software

1. If you are supported by ITFS or have different IT support, no action on your part is required.
2. If you do not have IT support or they do not support your computer for updates refer to the Adobe Bulletin and Advisories Page linked above and apply the necessary updates.
