UCSF is technologically and organizationally complex, with both centralized and departmental IT units providing support for enterprise and specialized services. Central IT provides infrastructure, network, security, analytics, integration, and application support services and is essential to the organization’s ability to support growth, mitigate security risk, and manage, store and share sensitive information.

View the org chart of UCSF IT:

- [UCSF IT Organizational Chart (UCSF Login Required)](https://it.ucsf.edu)[1]

Central IT is organized into six major units of service delivery:

- Customer Service
- Enterprise Information and Analytics
- Enterprise Applications and Infrastructure
- Security
- Office of the CIO
- IT Strategy

Several organizations provide more targeted support:

- [SOM Tech](https://soma.ucsf.edu)[2]
- [SFGH Computing & Network Services](https://it.sfgohs.org)[3]
- [Student and Academic Affairs, Educational Technology Services](https://it.ucsf.edu)[4]
- [UCSF Library](https://library.ucsf.edu)[5] and [Learning Technologies Group](https://it.ucsf.edu)[6]
- many other department and computer support coordinators
The following organizations support our communication and governance needs:

- IT Governance [7]
- Tech Forum [8]
