

Scheduled Maintenance:ITFS Supported Macs

ITFS Supported Macs

Status Type

Scheduled Maintenance

Private

Public

Date and Time

Wednesday, February 1, 2017 - 18:00

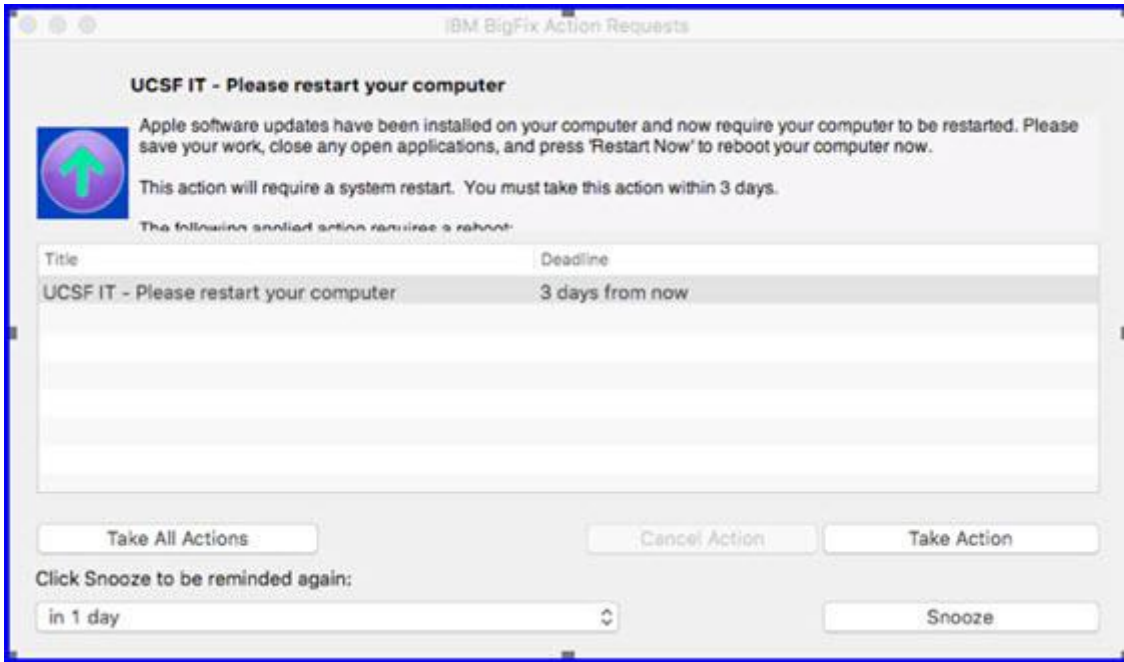

Reason

The ITFS Engineering Team will apply Apple Software Updates and additional security patches to ITFS supported Macs. *Please note that this only affects ITFS Supported Macs that have IBM BigFix installed.*

Note: If the computer is offline or powered off during the date and time above, the updates will be installed the next time the system is powered on and/or connected to the network.

Impact

Once the update installation completes, BigFix will display a prompt to reboot the computer. BigFix may prompt for a reboot more than once; this is expected behavior. Click Take Action to perform the reboot when prompted. Please note that the computer will not automatically reboot.
