

Scheduled Maintenance:ITFS Supported Macs

ITFS Supported Macs

Status Type

Scheduled Maintenance

Private

Public

Date and Time

Thursday, September 28, 2017 - 20:00

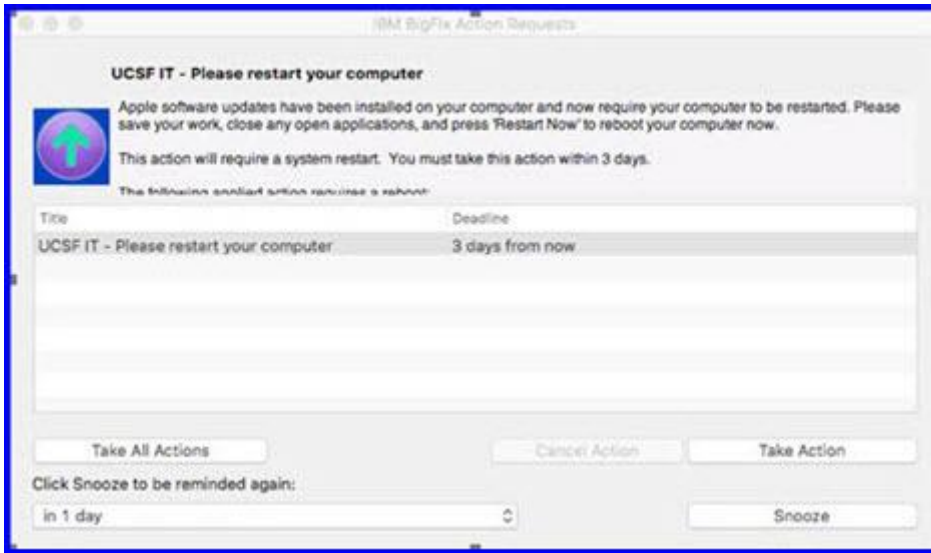

Reason

ITFS Engineering will be applying Apple Software Updates including security patches and applications updates to ITFS supported Macs. *Please note that this only affects ITFS supported Macs that have IBM BigFix installed.*

Note: If the computer is offline or powered off during the date and time above, the updates will be installed the next time the system is powered on and/or connected to the Internet.

Impact

Impact: Once the update installation completes, BigFix will display a prompt to reboot the computer. BigFix may prompt for a reboot more than once depending on what updates are installed; this is an expected behavior. Click Take Action to perform the reboot when prompted. Please note that the computer will not automatically reboot.
