**Impact**

Firefox users

**WHAT HAPPENED?**

Mozilla released 1 HIGH security advisory to address multiple vulnerabilities in Firefox 57.

**Advanced Users:** For a complete description of the security enhancement and affected software refer to:

Available updates FOR:

- Firefox 57.0.4 and below

WHAT’S THE PROBLEM?

Exploitation of the vulnerability may allow an attacker to obtain access to sensitive information.

HOW DO I PROTECT MY COMPUTER?

Update your software

1. If you are supported by ITFS or have different IT support, no action on your part is required.

2. If you do not have IT support or they do not support your computer:

   - Firefox is setup by default to auto update.
