Security Update: Apple has released security updates to address vulnerabilities in multiple products

Apple has released security updates to address vulnerabilities in multiple products

**Status Type**

Security Update

**Private**

**Public**

**Date and Time**

Tuesday, January 9, 2018 - 11:50

**Reason**

**WHAT HAPPENED?**

Apple has released security updates to address vulnerabilities in multiple products.

**Advanced Users:** For a complete description of the security enhancements and affected software refer to:

- Apple’s About the security content of macOS High Sierra 10.13.2 Supplemental Update at [https://support.apple.com/en-us/HT208397](https://support.apple.com/en-us/HT208397) [1].
- Apple’s About the security content of Safari 11.0.2 at: [https://support.apple.com/en-us/HT208403](https://support.apple.com/en-us/HT208403) [2]
- Apple’s About the security content of iOS 11.2.2 at [https://support.apple.com/en-us/HT208401](https://support.apple.com/en-us/HT208401) [3]

**AFFECTED SYSTEMS:**

- macOS High Sierra 10.13.2
- OS X El Capitan 10.11.6 and macOS Sierra 10.12.6
- iPhone 5s and later, iPad Air and later, and iPod touch 6th generation
WHAT'S THE PROBLEM?
A remote attacker could exploit this vulnerability to obtain access to sensitive information.

HOW DO I PROTECT MY COMPUTER?
Update your software

1. If IT Field Services or you have other IT support, no action on your part is required.
2. If you do not have IT support, for update information refer to refer to Apple’s Security Updates listed above
