

Annual Password Changes

UCSF requires annual password changes, and we'll let you know when it's time to update yours.

Keep you, your work, and UCSF safe by:

SELECTING A COMPLEX PASSWORD

12+

Passwords must be at least 12 characters.

CHOOSE 3

Use a combination of uppercase and lowercase letters, numbers, and symbols.

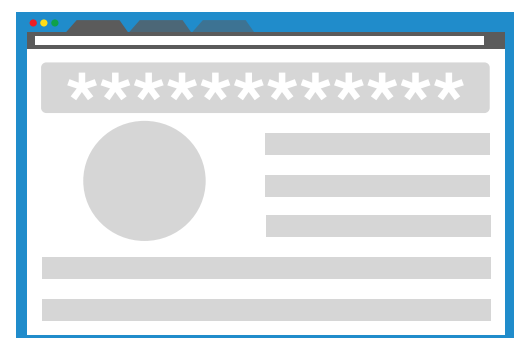

CONSIDER A PASSPHRASE

ReadmanyB00k\$

Use a phrase or sentence known only to you but still easy to remember

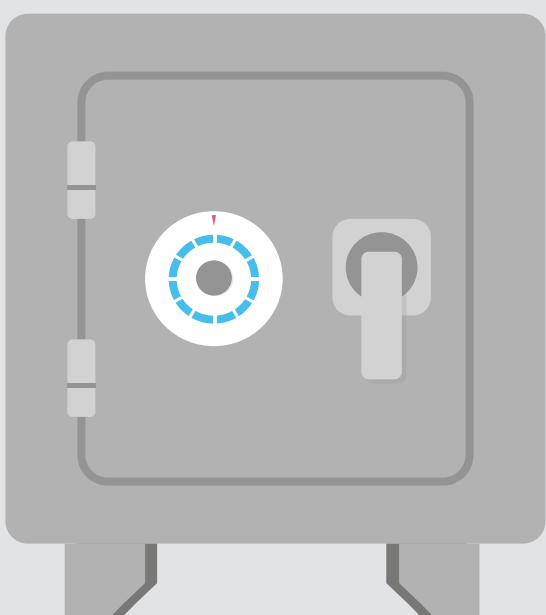

UPDATE ALL DEVICES/ APPLICATIONS

When changing your UCSF password, be sure to update it on any computers, devices or applications used in your work.

USE THE KEEPER PASSWORD VAULT

Keeper Password Vault

UCSF offers employees with a license to the Keeper Password Vault. Keeper allows you to manage all of your UCSF passwords and assists with generating strong passwords.
